

⋮ Carry naloxone ⋮

Overdose happens fast. Make sure you carry naloxone (Narcan).

⋮ Don't use alone ⋮

Try to have someone around or let someone know you are using so they can check on you.

⋮ Call 911 ⋮

If you think it's an overdose, call 911. They have more naloxone.

BE IN THE KNOW:

Fentanyl is showing up in all types of drugs!
Practice safer use & test your supply with
fentanyl test strips.

FENTANYL CAN BE IN ANY DRUG...

Often without people knowing.

May be found in:

- K2
- Heroin
- Cocaine/Crack
- Methamphetamine/Tina/Ice
- PCP
- Pills

**Extremely small
amounts of
fentanyl can be
deadly.**

**Fentanyl is 30-50x more
potent than heroin.**
